

New Jersey Division of Fish and Wildlife
Endangered and Nongame Species Program:
Rehabilitator Protocol

2004

- 1) Upon receipt of an endangered or threatened species, complete the “Endangered and Threatened Wildlife Sighting Report Form” with the person who found the animal. Be sure to include a photocopy of a map with the location where the animal was found clearly designated or detailed directions to the site.
- 2) You must contact the New Jersey Division of Fish and Wildlife’s Endangered and Nongame Species Program (ENSP) within 24 hours of receiving any endangered and threatened species.
DO NOT CONTACT ANY OFFICE OTHER THAN THOSE LISTED BELOW:

- a) In southern New Jersey: Call ENSP’s Tuckahoe office at (609) 628-2103
- b) In central New Jersey: Call ENSP’s Trenton office at (609) 292-9400
- c) In northern New Jersey: Call ENSP’s Northern Region Office at (908) 735-8975

**Office hours are Monday through Friday, 8:30am – 4:30pm. Each office listed above has either voice mail or an answering machine. Please leave a message and we will return your call as soon as possible.

- 3) **No one** has authorization to treat an endangered or threatened species unless they have contacted the Endangered and Nongame Species Program, and have received authorization over the telephone. Please be sure to get the name of the biologist who has given you authorization to treat it.
- 4) If you receive an endangered or threatened species on a Friday evening:
 - a) Gather necessary data (sighting report form).
 - b) Contact the proper office (select from the three listed in #2)
 - c) Since you will be unable to receive authorization by telephone to treat the endangered or threatened species, you are permitted to provide critical care and transport it to a rehabilitator that specializes in that species (see #5). For example, if you are a “mammal rehabilitator” that finds a hawk or an eagle, you are permitted to transport the animal to an “avian rehabilitator.”
 - d) Provide the “new” rehabilitator with the data forms, so that Endangered and Nongame Species Program can collect the information.
 - e) If you transport an endangered or threatened species, be sure to contact the same Endangered and Nongame Species Program office and inform them of its location and proper contact information.

- 5) If you receive an endangered or threatened avian species, herptile or a bobcat after hours that is in critical condition and needs immediate attention, please contact one of the following rehabilitators:

- for endangered and threatened species of birds

- (Burlington County) Woodford Cedar Run Wildlife Refuge, Jeanne Woodford – (856) 983-3329
- (Hunterdon County) Mercer County Wildlife Center, Diane Nickerson – (609) 883-6606
- (Morris County, NJ) The Raptor Trust, Len Soucy, Jr. – (908) 647-2353
- (Ocean County, NJ) Toms River Avian Care, Don Bonica – (732) 255-9270
- (Sussex County, NJ) Avian Wildlife Center, Giselle Chazotte Smisko – (973) 702-1957
- (Wilmington, DE) Tri-State Bird Rescue, Erica Miller –
pager 1-888-441-3539, please leave **ONLY numeric message**, NOT VOICE.

- for endangered or threatened species of herptiles

- (Passaic County, NJ) NJ Herpetological Rescue Society, Bill Boesenberg – (973) 248-9964

- for bobcats

- (Hunterdon County) Woodlands Wildlife Refuge, Tracey Nash-Leaver – (908) 730-8300
